

**IT'S WHAT'S INSIDE
THAT COUNTS**

IT'S WHAT'S INSIDE THAT COUNTS

Whether responding to an emergency where **seconds count**, coordinating a mobile workforce, or communicating critical information, your radio is essential, and its battery is key to your operation.

Hazards that can kill other radio batteries don't affect ours. **We build superior batteries** specifically for Motorola radios and test them in real-world conditions against our competition to prove they're some of the toughest and most reliable around, so your radio won't let you down when you need it most.

With a complete portfolio of Motorola Original and IMPRES two-way radio batteries that have been designed and developed as an **integral component of our two-way radios**, you can be confident our radio batteries perform optimally when you need them most.

YOUR BATTERIES:

SAFE, SMART, AND POWERED FOR LONGER!

Contact Ossipee Mountain Electronics to learn more about IMPRES batteries from Motorola!
